The following is an examiner's statement of reasons for allowance: The Examiner's Amendments above distinguish the instant invention from the nearest prior art of Shimamura et al. because the active material of the Shimamura et al. invention is necessarily two materials, a core material A and second phase B which at least partially wraps the core material A. The use of two materials is critical to the Shimamura et al. invention. In contrast, applicants' active material is limited to a single phase.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carol Chaney whose telephone number is (571) 272-1284. The examiner can normally be reached on Mon - Fri 8:30am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
